

Allow me to introduce myself, my name is Nathan O'Hare and I work for The Dive School as a PADI Instructor and have been part of the team for over 3 years. Using my experiences as a diver and instructor I have the pleasure of teaching something that I love doing, and hopefully new divers will develop the same enthusiasm and enjoyment from recreational diving that I have.

I like to dive all over and not just in tropical or warm waters. All around our own coast the UK offers some fantastic diving right on our doorsteps and I like to explore these shores just as much. Overseas I have dived in the Med, the Red Sea, Australia, Malaysia. and Mozambique. Whether its Swanage or Sharm-el-sheikh, West Bay or Whitsunday Islands, the variety and complexity of all marine habitats and species never ceases to amaze me

For anyone that has an interest in the fascinating underwater world and who wants to experience it first hand then learning to SCUBA dive is a must. Contact The Dive School now and we'll get you diving!
